Work Experience

Smart IT Ventures Pvt. Ltd

Dec 2020 - Mar 2023

Software Developer *2.2 Years*

- Designed and deployed scalable, highly available, and fault-tolerant websites on Laravel with 2 years of experience in software product development.
- Developed REST APIs using Laravel, Node.js and MongoDB, with expertise in handling APIs and understanding RESTful architecture.
- Strong command of HTML, JavaScript, and CSS, with experience in OOP, MVC, and database design for web applications.
- Proficient in system design, data structures, and algorithms, with hands-on experience in phpMyAdmin and Google Web Hosting.

Shine Dezign Infonet Pvt. Ltd.

Apr 2023 - Jul 2025

Senior Software Developer *2 years*

- Experience in Core PHP and WHMCS for developing and customizing web hosting automation solutions.
- Developed and integrated payment gateway modules within WHMCS, ensuring seamless transaction processing.
- Worked on server module REST APIs, enabling efficient communication and automation between WHMCS and hosting infrastructure.
- Enhanced WHMCS functionality by implementing custom scripts and optimizing system performance.

Freelancing

Jul 2025 - present

Sr. Software Developer

- Working as a Senior Software Developer, managing multiple client projects across platforms like Upwork, Freelancer, and direct collaborations.
- Skilled in Node.js, Laravel, and Core PHP, delivering high-quality, scalable, and performance-driven applications.
- Experienced in client communication, gathering requirements, and translating business needs into effective technical solutions.
- Proficient in project management, ensuring timely delivery, maintaining quality standards, and overseeing the complete development lifecycle.
- Leading and mentoring a small team of developers, ensuring effective team coordination and smooth project execution.
- Successfully handled multiple projects simultaneously, maintaining a strong focus on efficiency, quality, and client satisfaction.

Key Projects / Involvements

- Developed RESTful APIs using Node.js and Laravel, ensuring seamless communication between frontend and backend.
- Integrated payment gateways like Stripe, PayPal, and Razorpay in Laravel applications for secure transactions.
- Optimized database performance using MySQL (Laravel) and MongoDB (Node.js), improving query efficiency and scalability.

Summary

Results-focused Software Engineer with a proven track record of successfully delivering high-performance web applications. Specialized in innovative problem-solving, I excel at exceeding client requirements through cutting-edge technology solutions. Eager to contribute my expertise to drive success in dynamic environments.

Career Objective

To secure a challenging role as a Software Engineer, leveraging my expertise in delivering innovative Web Apps. I aim to contribute my technical proficiency and strategic problem-solving skills to drive project success and exceed client expectations in a dynamic and collaborative work environment.

Skills / Exposure

SQL | Node js | Progressive Web Apps | Core PHP | HTML 5 | CSS | Java Script | Laravel | CodeIgniter | jQuery | Bootstrap | Firebase | Mongo DB | MySQL

Methodology/Approach

Component based architecture | Agile methodology | Design Patterns | Test Driven Development | MVC

Tools

Git | VS Code | Bitbucket

Education

Mca - Computer Application

Lovely Professional University — Jul 2019 -Aug 2021
